Página 1

Organic Paprika Meal

Homogeneous free-flowing meal made from ripe and dry paprika pods (*Capsicum annuum*). It contains all of the carotenoids naturally found in the pods.

Características Físico - Químicas

Total Carotenoids:	5.0 gr/kg minimum
Moisture Content:	16 % maximum
Density:	0.4 to 0.6 gr/cc
Particle size:	A minimum of 52% passes through U.S. 20 mesh.

Usage:

Very adequate for mixing in the feed of laying hens in the production of organic eggs. For best results follow the nutritionist's recommendation.

Storage Conditions:

Keep in a dry and cool place preferably in its original sealed bags. Exposure to light, heat and air may damage the active ingredient.
